DETAILED ACTION

Status of the Application

Receipt of the Request for Continued Examination (RCE) filed under 37 CFR 1.114 and the Information Disclosure Statement (IDS), both filed 09/07/04 is acknowledged.

Claims 25 and 26 are pending. No amendments to the claims have been made.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 09/07/04 has been entered.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 09/07/04 was filed after the mailing date of the Notice of Allowance on 07/08/04. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

The EP 0 839 039 reference disclosed in the IDS filed 09/07/04 has been considered by the Examiner, but will not be cited since it is not prior art against the instant application.

Allowable Subject Matter

Claims 25 and 26 are allowed.

The following is an examiner's statement of reasons for allowance:

The instant invention is drawn to a composition that reduces the incidence of nausea and vomiting associated with the administration of paroxetine, comprising paroxetine, or a pharmaceutically acceptable salt thereof, in a controlled and delayed release swallow pharmaceutical formulation that, upon administration, releases the paroxetine predominantly in the small intestine.

The primary reason for allowance is that the prior art (Johnson WO 92/09281) does not disclose nor fairly suggest a composition comprising paroxetine in both a controlled and delayed release formulation and does not teach a method of treating one or more diseases states as claimed in instant claim 26. Rather, the prior art merely indicates that delayed *or* controlled formulations were known, however, the prior art itself, does not teach or suggest a formulation comprising a controlled and delayed release formulation. Applicants specification contains and defines the terms 'controlled release' and 'delayed release' formulations. The instant specification also contains multiple examples demonstrating paroxetine compositions in controlled and delayed release formulations. The controlled and delayed release combination of paroxetine as instantly claimed provides an unexpected reduction in the side effects associated with the administration of paroxetine using, for example, swallow tablets. Hence beneficial and improved results are obtained through the use of a formulation of paroxetine having both controlled and delayed release, as instantly claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
